

Programa de la sesión

13-15 de octubre de 2026

Fourth DONES Users Workshop

Other experiments and facilities relevant for DONES

CIEMAT, Main Auditorium
Venue: CIEMAT, Madrid

jue, 15 de octubre

14:30

Other experiments and facilities relevant for DONES

Sesión | Ubicación: CIEMAT, Main Auditorium, Venue: CIEMAT, Madrid

14:30–14:45

Structural and environmental compatibility of 316L/316Ti–EUROFER97 TIG welds for DONES Target Assembly Backplate**Ponente**

Nerea García Rodríguez

14:45–15:00

Test and Validation of a Neutron Measurement System based on Thin-foil Proton Recoil at the DONES Neutron Source**Ponente**

Dr. Urszula Wiącek

15:00–15:15

Dual-beam facility for advanced emulation of neutron-induced damage in nuclear materials using ions**Ponente**

Mario Matic

15:15–15:30

Lithium-6: fuel for future D-T fusion power plants**Ponente**

Magali Rego

15:30–15:45

RF Timer Based Photoelectron Emission Spectrometer**Ponente**

Dr. Hasmik Rostomyan

15:45–16:00

Water in cement: molecular-scale insights from neutron scattering**Ponente**

Alexander Van Driessche

16:00
